PROFILE

Cybersecurity professional skilled in policy enforcement, incident monitoring, and risk assessment, focused on strengthening security and safeguarding digital assets.

EXPERIENCE

HCLTech   September 2022 – Present
Security Analyst   *Noida*
- Administered security tools like Trellix HX and CrowdStrike; skilled in malware analysis, log analysis, and compliance policies for over 8,000 critical endpoints, achieving 95% adherence to security standards.
- Monitored and assessed the security posture for over 150,000 endpoints, achieving a detection rate of over 97% .
- Performed in-depth assessments, ranked vulnerabilities by severity, and delivered remediation recommendations to both technical teams and executive stakeholders.
- Led teams in resolving vulnerabilities through patch management, infrastructure improvements, and implementation of secure coding standards, ensuring completion within established timelines.
- Provided File Path Exceptions, Port Scan Exceptions, USB Access, and facilitated the movement of hosts across multiple AV groups, including creating necessary exclusions in the AV.
- Supported Service Desk, IT Service Desk, and Advanced Service Desk with major AV and EDR issues,raised support cases with the OEM for unexpected problems, and tracked the progress until case closure.
- Actively participated in priority calls, working in a fast-paced manner to remediate issues and assisted in identifying the root cause analysis (RCA).
- Initiated and oversaw change requests for server upgrades, reboots, patch deployments, policy modifications, and exception handling.

SportsApp   October 2021 – November 2021
JavaScript Developer Intern   *Noida*
- Contributed in developing their KaiOS application using ReactJS and JavaScript.
- Built and supported internal applications with ReactJS and JavaScript.

HeartItOut   July 2021 – August 2021
Web Developer Intern   *Remote*
- Developed responsive web pages leveraging HTML, CSS, and JavaScript
- Handled ongoing maintenance and content updates for websites built on WordPress.

EdifyThou   July 2020 – December 2020
Web Development — Films Head — Operations   *Remote*
- Worked with Founders on operations and branding, created and edited films for Instagram and YouTube.

SKILLS

Security Tools: CrowdStrike Falcon, Symantec Endpoint Protection
Certificates: CrowdStrike Falcon CCFA
Languages: C/C++, JavaScript, HTML/CSS
Security:

- Expertise in EDR tools administration like Crowdstrike.
- Strong knowledge of operating system security, debugging, and application security controls.
- Skilled in creating dashboards and reports for technical and executive audiences.
- Familiarity with data protection, privacy regulations, and compliance frameworks (ISO 270001, NIST etc)
- Experienced in configuration and management of AV tools (Symantec AV, Crowdstrike NGAV, MS Defender)

EDUCATION

JSSATE Noida   Noida, UP, India
Bachelor of Technology in Electronics and Communications Engineering   *2018 – 2022*
Delhi Public School Ghaziabad   Ghaziabad, UP, India
XII CBSE   *2016 - 2017*
Delhi Public School Ghaziabad   Ghaziabad, UP, India
X CBSE   *2014 - 2015*
