PROJECTS

LIBRARY MANAGEMENT SYSTEM | JavaScript, Bootstrap
This is a library management system. You can add / remove books from the inventory and save them to local storage.

ACTION GAME | Javascript, HTML, CSS
This is a web game, you save yourself from the villain, buy jumping over it again and again. The game gets over on contact with the villain.

NOTES WEBAPP | JavaScript, Bootstrap
A web app to create notes, with a minimalist design. This web app can take user input and store it in local storage and also display it in a clean organised manner. Users can delete individual notes which are not required.

TO DO LIST | JavaScript, Bootstrap
A web app to create a simple to do list, with a minimalist design. This web app can take user input and store it in local storage and also display it in a clean tabular form. Users can delete individual items or delete the complete list.

ROLES & RESPONSIBILITIES

HEARTITOUT | Web Development
Developed, Maintained and Updated the website for HeartitOut.in, a mental health and wellbeing company, based out of Bangalore. I was responsible for the development of fast, functional and responsive webpages using custom code and bootstrap 5.

GTK SURGICALS | Web Development
Developed the website for GTK Surgical, Advanced Laparoscopy Gastro Center, a laparoscopic clinic in Adarsh Nagar, North Delhi. And was responsible for Business Management Online.

EDIFYTHOU | Core Team | Web Development | Films Head
Was the member of the core team of this startup, was involved in the creation of films for the campaigns, created the website of the startup, with a good lighthouse score. Was also directly involved in the operations and ideation of the startup.

EDC JSS | Core Design Member
Member of the core design team of the Entrepreneurship Development Cell (EDC) have contributed in the designing and development of posters and films relating to the events organised by the cell.
